Applicant(s):	Gregory B. Altshuler <i>et al.</i>	Group Art Unit: 3739
Application No:	10/693,682 - 8658	Examiner: Roy D. Gibson
Filing Date:	October 23, 2003	
Entitled:	Phototreatment Device for Use with Coolants and Topical Substances	
Atty. Docket No:	105090-140	

Proposed Amendment for Discussion

1. (Proposed Amendment) A container configured for replaceable coupling to a phototreatment device having an indicator detector system, comprising:
- a container housing defining at least one compartment therein;
 - a substance contained in the compartment;
 - a container connector for coupling the container to the phototreatment device;
- the housing and the compartment being capable of coupling to a the phototreatment device to permit communication between the container and the device; and
- an indicator coupled to the container, wherein the indicator is capable of being detected by the detector system so as to determine an aspect of at least one of the container and the substance.
